

CODE: **AWO040** v.1.0/II  
 NAME: **7/EI20/GSM enclosure**

EN

### DESTINATION

The **AWO040** metal casings are designed as components (supplying) in intruders alarms, access control systems, security systems etc.

They are intended for installation:

- GSM/GPRS transmitter
  - PX100A
  - PX200A
  - LX10
  - SR-806ZJ

### TECHNICAL DATA

External dimensions of the enclosure:	W=250, H=250, D+D1=80+8 [+/-2 mm]
External dimensions of the front panel:	W1=255, H1=255 [+/-2 mm]
Net / gross weight:	1,95/2,10 [kg]
Space for battery:	7Ah/12V
Transformer:	EI20/14/16/18
Transformer norm:	EN 61558-2-6
Destination:	Indoor
Power supply voltage:	230V/AC, 50Hz (-/+15%)
Tamper protection:	1x – opening casing
Output current TAMPER - max:	500mA@50Vdc
Casing: IP	IP 20
Material description:	Sheet steel DC01, thickness: 0.7mm, protection anticorrosion, color: RAL9003
Operating temperature:	-10°C+40°C
Relative humidity RH –max.:	90 [%]
Declarations, warranty:	CE, 2 year from the production date
